INDEX TO VOLUME 16, 1973

AUTHORS

BAILEY, Peter, J. and HAGGARD, Mark P. Perception and production: some correlations on voicing of an initial stop 189
BARIK, Henri C. Simultaneous interpretation : temporal and quantitative data ... 237
BEIN, Monte F. (see MARKEL, Norman N.) 15
BOND, Z. S. The perception of sub-phonemic phonetic differences 351
BREZNITZ, Shlomo. "All-purpose responses" (APR) in verbal behaviour ... 147
BURGESS O. N. Intonation patterns in Australian English 314
CLARK, Michael and SHARF, Donald J. Coarticulation effects of post-consonantal vowels on the short-term recall of pre-consonantal vowels 67
DALRYMPLE-ALFORD, E. C. The effect of delayed auditory feedback on reading as a function of the syllabic length of the words 182
GILBERT, John H. Acoustical features of children's vowel sounds: development by chronological age *v.* bone age 218
GOLDSTEIN, Jeffrey I. (see LOCKE, John L.) 156
GREENFIELD, Patricia Marks. Who is "Dada"? Some aspects of the semantic and phonological development of a child's first words 34
GRIEVE, Robert. Definiteness in discourse 365
HADDING, Kerstin (see STUDDERT-KENNEDY, Michael) 293
HAGGARD, Mark P. (see BAILEY, Peter J.) 189
HASS, Wilbur (see LOZAR, Barbara) 22
HIPSKIND, Nicholas M. (see NERBONNE, G. Patrick) 57
HODGSON, William R. (see NORTON, Darryl E.) 207
HOFMANN, Joanne and PANAGOS, John M. Mothers' and non-mothers' semantic adaptation to deviant speech 396
HOPPE, Ronald A. (see MILLER, Dale T.) 211
LEHISTE, Ilse and MELTZER, David. Vowel and speaker identification in natural and synthetic speech 356
LEONARD, Laurence B. Referential effects on articulatory learning 44
LEONARD, Laurence B. The role of intonation in the recall of various linguistic stimuli 327
LOCKE, John L. Children's coding in short-term memory 271
LOCKE, John L. and GOLDSTEIN, Jeffrey I. Children's attention and articulation 156
LOZAR, Barbara, WEPMAN, Joseph M. and HASS, Wilbur. Syntactic indices of language use of mentally retarded and normal children 22
McCLEAN, M. D. and TIFFANY, W. R. The acoustic parameters of stress in relation to syllable position, speech loudness and rate 283
MARKEL, Norman N., BEIN, Monte F. and PHILLIS, Judith A. The relationship between words and tone-of-voice 15
MELTZER, David (see LEHISTE, Ilse) 356
MILLER, Dale T. and HOPPE, Ronald A. The effect of regional similarity-dissimilarity on communicator credibility 211
MILLER, Jon F. Sentence imitation in pre-schooi children 1
MILLS, John A. (see SCOTT, Robert Ian) 110
MORTON, Katherine (see TATHAM, M. A. A.) 336
NERBONNE, G. Patrick and HIPSKIND, Nicholas M. Vocabularies of oral and graphic language 57

NORTON, Darryl E. and HODGSON, William R. Intelligibility of black and white speakers for black and white listeners 207
OSTREICHER, Harvey (see SHARF, Donald J.) 196
PANAGOS, John M. (see HOFMANN, Joanne) 396
PHILLIS, Judith A. (see MARKEL, Norman N.) 15
POOLE, Millicent E. A comparison of the factorial structure of written coding patterns for a middle-class and a working-class group 93
RUDER, Kenneth F. (see STEVENS, James H.) 123
SAMARIN, William J. Glossolalia as regressive speech 77
SCOTT, Robert Ian and MILLS, John A. Validating the permutational test of grammaticality 110
SHARF, Donald J. and OSTREICHER, Harvey. Effect of forward and backward coarticulation on the identification of speech sounds 196
SHARF, Donald J. (see CLARK, Michael) 67
SIGURD, Bengt. Maximum rate and minimal duration of repeated syllables 373
SPREEN, Otfried and WACHAL, Robert S. Psycholinguistic analysis of aphasic language: theoretical formulations and procedures 130
SPREEN, Otfried (see WACHAL, Robert S.) 169
STEMMER, Nathan. Language acquisition and classical conditioning 279
STEVENS, James H., RUDER, Kenneth F. and TEW, Roy. Speech discrimination in black and white children 123
STUDDERT-KENNEDY, Michael and HADDING, Kerstin. Auditory and linguistic processes in the perception of intonation contours 293
TATHAM, M. A. A. and MORTON, Katherine. Electromyographic and intraoral air-pressure studies of bi-labial stops 336
TEW, Roy (see STEVENS, James H.) 123
TIFFANY, W. R. (see McCLEAN, M. D.) 283
VELMANS, Max. Speech imitation in simulated deafness, using visual cues and "recoded" auditory information 224
WACHAL, Robert S. and SPREEN, Otfried. Some measures of lexical diversity in aphasic and normal language performance 169
WACHAL, Robert S. (see SPREEN, Otfried) 130
WEPMAN, Joseph M. (see LOZAR, Barbara) 22

PAPERS

Acoustic parameters of stress in relation to syllable position, speech loudness and rate. M. D. McClean and W. R. Tiffany 283
Acoustical features of children's vowel sounds: development by chronological age *v.* bone age. John H. Gilbert 218
"All-purpose responses" (APR) in verbal behaviour. Shlomo Breznitz 147
Auditory and linguistic processes in the perception of intonation contours. Michael Studdert-Kennedy and Kerstin Hadding 293
Children's attention and articulation. John L. Locke and Jeffrey I. Goldstein ... 156
Children's coding in short-term memory. John L. Locke 271
Coarticulation effects of post-consonantal vowels on the short-term recall of pre-consonantal vowels. Michael Clark and Donald J. Sharf 67
Comparison of the factorial structure of written coding patterns for a middle-class and a working-class group. Millicent E. Poole 93
Definiteness in discourse. Robert Grieve 365
Effect of delayed auditory feedback on reading as a function of the syllabic length of the words. E. C. Dalrymple-Alford 182

Effect of forward and backward coarticulation on the identification of speech sounds Donald J. Sharf and Harvey Ostreicher 196
Effect of regional similarity-dissimilarity on communicator credibility. Dale T. Miller and Ronald A. Hoppe 211
Electromyographic and intraoral air-pressure studies of bi-labial stops. M. A. A. Tatham and Katherine Morton 336
Glossolalia as regressive speech. William J. Samarin 77
Intelligibility of black and white speakers for black and white listeners. Darryl E. Norton and William R. Hodgson 207
Intonation patterns in Australian English. O. N. Burgess 314
Language acquisition and classical conditioning. Nathan Stemmer 279
Maximum rate and minimal duration of repeated syllables. Bengt Sigurd 373
Mothers' and non-mothers' semantic adaptation to deviant speech. Joanne Hofmann and John M. Panagos 396
Perception and production: some correlations on voicing of an initial stop. Peter J. Bailey and Mark P. Haggard 189
Perception of sub-phonemic phonetic differences. Z. S. Bond 351
Psycholinguistic analysis of aphasic language: theoretical formulations and procedures. Otfried Spreen and Robert S. Wachal 130
Referential effects on articulatory learning. Laurence B. Leonard 44
Relationship between words and tone-of-voice. Norman N. Markel, Monte F. Bein and Judith A. Phillis 15
Role of intonation in the recall of various linguistic stimuli. Laurence B. Leonard 327
Sentence imitation in pre-school children. Jon F. Miller 1
Simultaneous interpretation: temporal and quantitative data. Henri C. Barik ... 237
Some measures of lexical diversity in aphasic and normal language performance. Robert S. Wachal and Otfried Spreen 169
Speech discrimination in black and white children. James H. Stevens, Kenneth F. Ruder and Roy Tew 123
Speech imitation in simulated deafness, using visual cues and "recoded" auditory information. Max Velmans 224
Syntactic indices of language use of mentally retarded and normal children. Barbara Lozar, Joseph M. Wepman and Wilbur Hass 22
Validating the permutational test of grammaticality. Robert Ian Scott and John A. Mills 110
Vocabularies of oral and graphic language. G. Patrick Nerbonne and Nicholas M. Hipskind 57
Vowel and speaker identification in natural and synthetic speech. Ilse Lehiste and David Meltzer 356
Who is "Dada"? Some aspects of the semantic and phonological development of a child's first words. Patricia Marks Greenfield 34
